Introductory

The present volume for the year 1963 is the eighty fifth edition of Henderson's Directory of Winnipeg, the first being in 1878.

THREE MAJOR DEPARTMENTS

The three major departments are arranged in the following order:—

I. THE BUYERS' GUIDE, printed on yellow paper, constitutes the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings — a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Winnipeg, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, printed on green paper, is the third major department. In this section the named streets are in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

ADVERTISING WINNIPEG

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city, the publishers have placed copies of this issue of the directory in libraries across the country where they are readily available for reference use by the public. There they serve as perpetual advertisements of Winnipeg, for businessmen the country over realize that the City Directory represents the community as it really is.

Respectfully, The Publishers,

HENDERSON DIRECTORIES LIMITED.

Publishers' Note

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES LIMITED,
PUBLISHERS.

The fast-growing oil fields in southwestern Manitoba are rapidly increasing the importance of our oil industry. Total number of wells actually producing at the end of 1961 was 745 and the total production in the year was 3,926,683 barrels. The capacity of Manitoba refineries is now 11 million barrels annually, and our well production is approximately half that at present.

An indication of the activity in our mining industry for which Winnipeg is the supply headquarters, is the current development of International Nickel Co's, 175 million dollar mining project in the Mystery-Moak Lake area of Northern Manitoba. Other mines are being opened up in South East Manitoba as well as in The North.

COMMUNICATIONS

In all media of communications, Greater Winnipeg is served well. The **telephone system** in the province is provincially owned and operated. In the Greater Winnipeg district there were 205,000 telephones as of Nov. 30, 1962. Five **radio stations** operate in the Metropolitan area, four of them in the City of Winnipeg and one French language station in the City of St. Boniface.

Call Letters	Wattage	Frequency
CKSB (French language) (St Bon)	10,000	1,050 kilos.

CKRC	5,000	630 kilos.
CKY	50,000	580 kilos.

TELEGRAPH SERVICE—

Telegraph service is supplied by the Canadian National Telegraphs, a subsidiary of the Canadian National Railways, and the Canadian Pacific Telegraphs, a subsidiary of the Canadian Pacific Railway.

For **Postal Service** the Winnipeg district is within 24 hours postal time of most North American centres and about 24-48 hours from the United Kingdom.

PUBLICATIONS—

It is generally recognized that the Winnipeg area, with its heterogeneous population, is the Canadian centre for foreign language and the racial group publications. In addition there is a wide variety of weeklies, farm papers, magazines and trade organs issued in conjunction with many phases of activity in the Province. Many of these publications have wide circulation in the Prairie Provinces as well as in other parts of the Dominion.

FURTHER INQUIRIES

The foregoing data show that the cities and municipalities forming the Metropolitan area of Winnipeg have much to offer the industrialist and businessman who is considering the Western Canadian Market. In a publication of this nature, it is not feasible to give the wealth of detail and specialized data required by many industrial organizations. Interested firms may obtain such information from the **Department of Industry and Commerce, Norquay Bldg., Winnipeg,** or Metro Winnipeg Industrial Development Board.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

City Directory Usage Soars To NEW HIGH!

Post-war relocations of millions in their permanent homes; readjustments of business to normal conditions; the great new developments in civilian life just over the horizon of the future — these and other things make City Directory listing a "must" for all business people. Remember the huge upswing in City Directory usage.

It takes 5 years to throw the switch!

This is the time required by your Manitoba Hydro to build and develop a power project.

Time and development that is building a strong base for a healthy and expanding Manitoba economy.

Time and development that provides our province and its many towns, villages and cities with electrical power — a power that's attracting new industry and creating more jobs, more opportunities and more prosperity for a growing Manitoba.

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY
Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the **Directory** of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

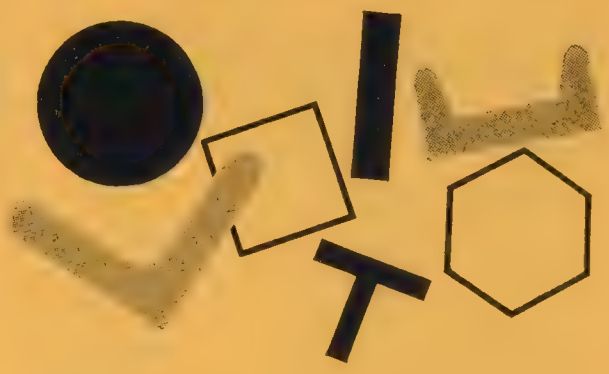
If there were but **One Subscriber** to the **City Directory — the One Subscriber** would of necessity have to absorb **The Whole Cost.**

If there were **100 Subscribers**—each one would have to absorb **1/100th part of The Whole Cost.**

If there were **1000 Subscribers**—each one would **have to** absorb **1/1000 Part of the Whole Cost.**

From which it is obvious that the **Greater** the number of subscribers —the **Lesser** the cost to each.

It is also obvious that the **Lesser** the number of subscribers—the **Greater** the cost to each.



Every time you loan your City Directory the **Less Necessity there is for the Borrower to subscribe for the Service.**

More Borrowers result in **Fewer Subscribers,** which means **Increased Cost.**
